---

**Projects**

**Community of Guardians — Social Platform Web**      **Jan 2026 - Present**

- <https://github.com/Cog-IDSP>      **Full stack web developer**
- React + Typescript + SQL + CSS
- Worked with a real nonprofit client to define and deliver requested platform features.
- Built quizzes, SDG-focused education modules, community forums, and a gamified mission points system.

**Forge — Career Exploration App**      **Sep 2025 - Dec 2025**

- <https://github.com/Forge-IDSP>      **Full stack web developer**
- React Native + Bun + Hono + PostgreSQL + Clerk + Tailwind
- Built an AI-driven conversational mentor with gamified learning progression.
- Worked with BCIT design students to validate UX decisions, refine flow structures, and align pacing with learner expectations.

**LendItOut — Marketplace App**      **Mar 2025 - May 2025**

- <https://github.com/IDSP-LendItOut/LendItOut>      **Full stack web developer**
- Typescript + Express.js + MongoDB + CSS(Sass)
- Received refined UX/UI Figma files and worked in an agile workflow using Jira.
- Modeled users, listings, and categories in MongoDB and implemented upload and browsing flows that enable community-driven item lending.

---

**Experience**      **Manager / Tenton Restaurant**      **2020 - 2025**

- Optimized front-of-house workflows and service standards, reducing wait times and improving overall customer satisfaction.
- Developed and deployed a real-time online ordering and reservation platform, enabling smoother service coordination and driving measurable increases in sales.

---

**Certification**      • AWS Certified Developer – Associate      **2025**

---
